RO-EDI WATER TREATMENT SYSTEM

Total Water Technology Solution

Surprisingly, water not oil, is considered the most valuable and essential commodity in Qatar today. Keeping the nation supply of potable and irrigation water running smoothly at all times maintains the quality of life in Qatar at optimal levels. However supply, pressure and domestic storage conditions can vary the quality of water.

Provides a wide range of pumping system with diverse application encompassing domestic supply, irrigation, fire fighting, industrial and sewage system.

We design, build, install and supply complete system to pump, filter, cold and hot water for our customers who include:

GOVERNMENT COMPLEXES, COMMERCIAL COMPLEXES, RESIDENTIAL COMPLEXES, PRIVATE HOUSES, HOSPITALS, HOTELS, FARMS..
